The source of the information displayed here came from a State Forestry Board map produced in 1914 by F A Elliot, State Forester. The original map was compiled by Theodore Rowland. The original map is presently archived at the OSU map library. Dave Stere, The Oregon Department of Forestry, had the map traced onto vellum overlays and then digitized by the State Service Center for GIS in August of 1993.

1 = Merchantable Timber
2 = Cutover Areas Re-Stocking
3 = Cutover Areas Not Re-Stocking
4 = Burned Areas Re-Stocking
5 = Burned Areas Not Re-Stocking
6 = Brush
7 = Non-Timber Areas
